I am opposed to the GLBT Railroad Project. I do not want or need a hazardous material railroad train running through Salina Township, within one half mile of the Village of Bonfield. This railroad will present so many unknown and unforeseen problems that it is hard to comprehend. It will cause delayed response times for our Fire Dept. and school buses. It will possibly cause health and public safety problems. I can't imagine the contamination it will create for the aquifer/well water quality for our children and we adults. If you take into consideration all the problems that accompany a project like this it should not be allowed. Would you want it in YOUR backyard??? Please deny all permit requests and approvals. Thank You
