Great Lakes Basin Application

Abraham Scheppler

212 North Owen Mount Prospect Illinois 60056

zombieman1000@gmail.com

ENTERED
Office of Proceedings
June 22, 2017
Part of
Public Record

The revised Great Lakes Basin information submitted on 06/22/17 again shows the lack of respect this company has for the review process. Again they submit at the last minute on the day it is due and supply less than accurate information. First they were to supply a list of cities served by this rail line. I can list hundreds of cities this line runs through, but the most glaring omission is they fail to list their rail line would serve Chicago, Illinois. Once again GLBT fails to consider the details of their project. This application must be denied as once again they have provided incomplete answers to serious questions. Their balance sheet is also a 2016 balance sheet, we are in June of 2017, they are to provide a current balance sheet, a 2016 balance sheet is not current, where is quarter one of 2017? Any business should have quarterly accurate information available. Please deny this application and or issue a no build ruling immediately based on the complete lack of details and supporting materials provided by GLBT.
