Private Citizen

The Great Lakes Basin project must be denied, they have failed to show any ability to pay for the project. They have no existing business and no financial history. This whole scheme of theirs is straight out of an episode of "Dallas" the only problem is Frank Patton is no JR Ewing. At least with JR you knew he had a business history and a reputation. With GLBT we have nothing. They have no history, no documented income, no assets, no income and no loans or any financing in place, based on these facts you must deny their request as not meeting the public necessity criteria of financial ability to pay for the project in its entirety. Please issue an immediate no build ruling and allow us to go back to how things were in our peaceful countryside, we can then re-set our lives just like they did on "Dallas" by making Bobby's death a dream. Because for the public this project is a nightmare and it needs to end.
