Re: *STB Docket No. EP 724-3 - United States Rail Service Issues- Data Collection*

Dear Chairman Elliott and Members Miller and Begeman:

I am writing to provide comment on the service data that we are filing contemporaneous herewith in response to the Board's data collection order of October 8, 2014.

CP's US network continues to be fluid and in good operating condition, as it has for months. Again this week, system average train speed, weekly average terminal dwell, and cars on line data are all good.

Our outstanding grain car orders remain at zero this reporting week, as they have for the previous twenty weeks. We spotted a total of 1506 grain cars this week, which total includes single cars and cars in dedicated trains, and we received 475 new grain car orders. From a grain order perspective, we continue to be current in the United States.

The Rapid City, Pierre & Eastern Railroad (RCP&E) did not request any grain cars this week. On average there was a minus four CP/RCP&E locomotive balance this reporting week, meaning there were four more RCP&E locomotives on CP than CP locomotives on RCP&E.

Sincerely,

Robert Johnson
Senior Vice President Operations
