Part of
Public Record

I am opposed to removing or making it more difficult to change old R.R. embankments into public access. To me it's denying public access to public property simply because special interests have to monies to do so. This country is for all and should remain as such no matter of financial ability. This price has already been paid by those men and women who have fought and who have died to make it that way. Do not let them go in vein
