ENTERED
Office of Proceedings
May 22, 2017
Part of
Public Record

Please Deny the Great Lakes Basin Transportation LLC the ability to hide its Owners / investors. I do not believe they should hide this vital information from the public. This board should also take inconsideration the real value of farm ground. This ground is fragile and we only have ourselves to blame for ruining it. For the last 25 to 30 years we have been repairing the damage that has been done with good farming practices including No-till and minimum till, high fertility and reduced chemical usage. It is very hard and time intensive to prepare this ground for a good crop. We all need to do our part to protect this vital commodity we have(fertile ground). This is not undeveloped ground and as my father taught me "Respect the ground as we only have so much of it and leave it in better shape than you received it" Please deny this application and help us preserve this wonderful gift we have to grow food for all. Thank you, Mark Hayes
