ATTN: Docket # FD-35952

Ken Blodgett
Surface Transportation Board
Docket # FD 35952
395 E Street SW
Washington, D.C. 20423-0001
Mr. Blodgett.

After reviewing the available information about the proposed Great Lakes Basin (GLB) rail project, it is my opinion that the proposed GLB project has failed to sufficiently provide documentation that supports public convenience and necessity. For the following reasons I respectfully request that the STB cease any further action on this project.

*In regard to the Great Lakes
Basin Railroad -*

Bury it all underground.

It's been done before and

it's work out very well!

The above provided information is what led me to the conclusion that the proposed GLB project is inconsistent with the public convenience and necessity. It was insufficiently vetted before starting the approval process. I respectfully request that the STB takes "no action" on this project.
