Surface Transportation Board
Attn: Docket # FS-35952

Sirs:

I am requesting that the STB deny the Motion of Protective Order. Why should the names of the investors be protected? What are they hiding? Everything should be transparent. Are they Legislators , politicians, or investors of another country involved? These are questions that should be looked into.

If the project moved forward and becomes bankrupt, will it be the taxpayer that will foot the bill and the investors involved benefit from it? It seems that Frank Patton and investors are hiding something.

Sincerely,

Marion Lawson
