Public Record

The Great Lakes Basin Railroad's proposed railroad, toll road, and power line corridor is a bad idea. There is no information about the investors. The rights of hard working farmers, many who have farmed this land for 5 generations, have not even been considered. Many families would have their lives disrupted by trains so close to their homes. People who live in the proposed route do not need a railway, toll road, or more high power lines. It will have adverse effects on everyone who lives or travels through the area.

Please do not grant the Great Lakes Basin Railroad the right to take personal property. If this is such a good idea, then they should be able to buy the needed property and not force it on anyone.

Thank you.
