Public Record

We are opposed to the GLBT proposition. If this railroad is actually built, the rape of seized lands will be irreversible. We have enough bike paths! We need the economically productive farm land that we have.

The loss of agricultural revenue, natural and recreational areas, and the potential hazards to the rivers, wetlands and aquifers for a transportation company that has never transported anything and has no experience running a railroad, has no confirmed customers, and no certified funding cannot rationally have any credence!

This proposal must be denied in no uncertain terms.

We respectfully request that you choose the no action alternative and reject the GLBT application.

Sincerely,

Paul and Sharon Gaspar
