Weekly Status Report of Arkema Inc.—June 14, 2018

Complainant Arkema Inc., submits this weekly status report on discovery progress pursuant to the Order that Administrative Judge Dring issued on March 2, 2017, in this proceeding.

1. Progress of Discovery

Arkema has identified additional potentially responsive documents on the hard drive of a custodian that were not collected when Arkema initially collected records from the custodian's hard drive. Arkema also has identified a small number of potentially responsive records through a Boolean search using phraseology found in responsive records Arkema previously produced. Arkema currently is reviewing these additional documents and, to the extent these records are responsive, Arkema intends to produce them next week.

2. Outstanding Discovery Concerns

Arkema has responded to an inquiry from Union Pacific concerning the scope of its document collection.

3. Plans to Address Outstanding Discovery

Arkema is currently processing the additional potentially responsive documents it collected and expects to produce all responsive documents next week. Arkema will also produce a privilege log shortly after it completes this production.

Arkema has proposed July 10 or 11 as dates for the deposition of an Arkema witness. UP counsel has declined to commit to those dates until Arkema has produced the additional documents recently identified as potentially responsive.

4. Estimate of Time to Address Concerns

There are no outstanding discovery concerns.

Respectfully submitted,

/s/ Jason D. Tutrone
