Please deny the Motion for Order of Protection requested by Great Lakes Basin Transportation. At first we were told that Great Lakes had their investors lined up and no government money would be needed to help build the un-needed railroad. Now we are told that our tax money will be needed to help fund a railroad that will cut right thru our valuable farm land, when there are plenty of railroads going thru LaPorte County, Indiana already. We the citizens have the right to know who plans to invest so we can reason with them. Thank You. Deb Herrold - concerned citizen
