I am opposed to the GLBT for many reason. It will impact many things negatively such as agriculture, schools, transportation, and general way of life. How can a non-government entity take land via eminent domain? The proposed rail ort is 5 times larger than the current largest in the country. Rail, airport, tollway, utility easement and on and on. We don't even know where or what country this "private money" is coming from. Please stop this NOW.....
