NARPO

I feel property owners and tax payers should not have to fight a trail for decades. I support the proposed limit of six extensions of a trail use negotiating period, of no more than 180 days for each such extension. I am currently in litigation against a trail on my property and part of their strategy is to flood me with attorney bills until I run out of funds. I am paying for the local government to use my tax dollars to fight myself. It seems pretty ironic and needs to be stopped.
