To meet public necessity a project must be able to prove they have the ability to finance their plans. Great Lakes Basin has a net worth of \$151 and liabilities of \$802,000, no letters of intent, no current customers and no experience, they do not have the financial ability to construct and operate a project of the size they are proposing. Because they have failed to prove their financial ability, they plan must be denied. Please issue an immediate denial of the project.
