Citizen

The Nickel Plate rails should not be removed. The owners have not allowed public input. The rail service is a needed and historical service. the owners have chosen an operator that will set the rail line up for failure. If the rail is removed in this 9 mile stretch it closes at least 37 miles of useable rail as well as connecting rails that adjoin it. CSX etc. It will end the transportation through 3 major urban centers. Fishers, Noblesville and Indianapolis, In. The owners ceased operations of the train without due cause. The FRA deemed the tracks safe and a private consultant also deemed them safe and in surprisingly good condition. Don't let the public officials who are going against the majority of the citizens, remove this viable piece of rail and scuttle miles of rails that are very usable

I certify that I have this day served copies of the document upon the Applicant in this proceeding, by [U.S. Mail or E-mail].
