GLBT APPLICATION

JEFFREY ALAN SOULIGNE
2235 FOX RUN DRIVE
KANKAKEE, ILLINOIS 60901
refjef@sbcglobal.net

I am writing to voice my opinion against the GLBT application. I feel that the railway would make a great negative impact on not only the agricultural community but also the homes in the area.

The area effected is part of a HERSCHER HIGH SCHOOL DISTRICT which covers on of the largest per square mile areas in ILLINOIS. School buses would be making multiple trips per day over and around the tracks. The potential for an accident would be very high. Also it being rural communities many people are served by wells. I hate to even think of the results of a derailment & contamination to the ground soil. There are also many underground pipelines in the area
