Weekly Status Report of Arkema Inc.—March 15, 2018

Complainant Arkema Inc., submits this weekly status report on discovery progress pursuant to the Order that Administrative Judge Dring issued on March 2, 2017, in this proceeding.

1. Progress of Discovery

Arkema is continuing to collect and review records and will produce them on a rolling basis.

2. Outstanding Discovery Concerns

None.

3. Plans to Address Outstanding Discovery

Arkema has identified approximately 60,000 electronic files that are potentially responsive to Union Pacific's discovery requests and is attempting to cull these files further for

responsiveness using multiple methods. Once Arkema has narrowed the field of potentially responsive files to a reasonable level, it will begin production. Arkema will revise its estimate for completing production once it has made sufficient progress in culling these electronic files.

4. Estimate of Time to Address Concerns

There are no outstanding discovery concerns.

Respectfully submitted,

/s/ Jason D. Tutrone
