DENY the motion for order of protection requested by GLBT. We have every right to know who the investors are. THIS PROJECT DESTROYS FIVE OF MY FAMILIES FARMS!!!! I will not allow that to happen. They want to land lock us out of two of my families farms. Why do people think they can just come in and take over because they have deep pockets?? Stop upsetting this community. I ATTENDED ONE MEETING THAT THE MAN GOT SO UPSET THAT HE HAD TO BE TAKEN TO THE HOSPITAL. REALIZE WHAT THIS DOES TO PEOPLE!!!! The stress alone in this community is already tense. I can't even imagine how bad it would be if this foolish project tried to get started. As I mentioned the current path destroys five of my families farms and I would like to talk to every one of these investors in person so that they understand why this project is completely immoral and unethical. These people want to just go through and destroy my job and my life and then not even talk to me about it. That is unjust. These people think they are helping the community by doing this project???? If they think that, they are failing!!!! I invite each one of these investors out to my farm so that I can show them first hand how it DESTROYS THIS COMMUNITY. This project hurts everyone in this community... farmers, police, fire stations, ambulances, schools, and it hurts businesses of many different kinds. Traffic would be an issue. Come to my farm and I'll gladly show you around the community and why this is so absurd!!!
