Public Record

As a Farmer near the proposed rail line and now toll road, and land owner in the footprint of the proposed 15,000 acre rail yard, I urge you to deny the "Motion for order of protection" requested by the GLBT. It's our land and we have the right to know who is trying to take it. Only reason I can see for the secret investor list would be so they can donate huge sums of money to elected officials without being linked to the project publically. Like I said, the people who own the land, Farm the land and live on the land have the right to know who they are fighting.
