Deny Order of Protection

To Whom It May Concern At The Surface Transportation Board:

Please deny the request to keep secret the investors and stockholders of the Great Lakes Basin Transportation Railroad. They have an incomplete application on Finances for the Railroad. As the Surface Transportation Board it is your job to make the Great Lakes Basin Transportation Railroad to disclose what their full intent of the project will be used for to the public. Also, I have not seen any letters yet of who will be using the rail line.

We are a 5 Generation Farm, Campground, Coffee Shop, and Quarry, that will all be put out of business when this Railroad goes through. Frank Patton likes to talk about leaving a legacy to his children and grandchildren, but what about ours in the direct line of this railroad. Or do you just not care?

Not to mention what about the Indian Mounds in this county and the other counties involved in this GLBT Project?

Thank You For Your Time, Gary Faulkner
