To whom it may concern:

Please deny GLBT's protective order for its supposed shareholders and investors. We the PEOPLE whose lives and homes are threatened by this have every right to know. If GLBT can be granted these permissions there should be full transparency as to who stands to profit from OUR rightfully owned land and properties. No exceptions should be provided to the GLBT. Please immediately deny this protection and force GLBT to provide this information to continue with the EIS and application.

Sincerely,
