ENTERED
Office of Proceedings
May 22, 2017
Part of
Public Record

Please deny the motion GLBT made for an order of protection to withhold finances from the public. A project of this size and scope will have manifold impacts, both short and long-term on the citizens and communities along the proposed route. United States citizens deserve the right to know before government approval, who is forcing their way into our communities and lives. Who will use eminent domain to seize and divide our land? Are the inventors credible, or will they fold in bankruptcy during construction or after the first major derailment, and leave a mess for the taxpayers to clean-up? Is there anything obligating these investors to be good stewards of the land and communities they plan to invade through eminent domain?

Government failed us when hedge funds were allowed to hide relevant information from the public. Please don't allow GLBT to hide important and relevant information from the general public during the environmental impact assessment.
