GLBT Application

Deny Motion for Protective Order

ENTERED
Office of Proceedings
May 19, 2017
Part of
Public Record

Please, I demand the motion for Protective Order of GLBT to keep their investors secret be DENIED!

Approving a project of this scale that affects so many lives without finalized funding is truly reckless!

GLBT claims that none of its stockholders are affiliated in any way with any industry that may be served by the proposed rail line. Without knowing the identities of these stockholders, it is impossible to know if this claim is true! GLBT has been unable to produce the documentation and financing information to prove this project is sustainable or even realistic. They have also dramatically changed the project to also include a tollway and an airport!

An application for a project of this size and scale must be complete, open, and transparent. The residents of Indiana, Illinois, and Wisconsin expect nothing less, and neither should the Surface Transportation Board!

Thank you for your time.

Sincerely,

Deborah A. Mitchell
