Part of
Public Record

Disgustingly, I find it necessary to strongly request that you take action now to stop the process of railbanking the Nickel Plate train lines from Indianapolis to Tipton, Indiana. The line has not been abandoned and must be reinstated to continue the services greatly needed in our community. The general public's voice has been totally suppressed due to the owner's personal political ambitions for the future. The public is clear in our stand to see full process to reinstatement of the Nickel Plate rails and not to move forward with railbanking. Please do not close this case but, call a public forum to uncover the truth. Thank you for your time and considerations.

I certify that these comments have been provided to the Applicant's Attorney of Record via email.
