Message: I am asking that you deny GLBT motion. How can I as any affected resident put up an informed and intelligent fight when there are no details included in the proposal? How can you make a decision that will effect so many citizens without this information. There are some basic information that we both need: Who/where is he getting his money or capital, What railroads will be using this company, Where EXACTLY is he running his tracks, What other uses are being planned for this same rail bed, Where is he getting the equipment-does he own any equipment. Do you know the answers to these fundamental questions. We deserved to know the answers.
