Dear STB: I am writing to request that you deny the Motion for Order of Protection requested by GLBT. As a concerned citizen of this community I am worried that by granting this order of protection our community will be unable to properly inquire about the investors and obtain information necessary to protect our community from the devastating effects that the railroad Great Lakes Basin is proposing will make on our community. Please do not grant this motion and give our citizens and our community the opportunity to obtain what we need.
