Public Record

Having farmed for over 60 years I find it interesting that GLBT can claim they have the ability to pay for the largest rail project in 100 years with no current balance sheet, no loans in pace, no letters of intent, no assets, and no business history. My bank would not even give me the time of day if I could not show proper assets and ability to repay them, as well as business history. GLBT needs to present their ability to pay, before any review of their application is done. Anyone can say they will be able to pay, GLBT must prove it. They need to also release their investors as the public has a right to know who is behind this project and investigate their ability to pay and their backgrounds.
