

FD 35952

GLBT Application

Michael Thompson
4980 W Cleophas Rd
BELOIT, WI 53511
mike2ss529@gmail.com

ENTERED
Office of Proceedings
May 18, 2017
Part of
Public Record

I am writing to express my opposition to the Motion for a protective order in the application, thus refusing to fully disclose his investors in the project. On one hand, you have Frank Patton asking the public, whose land he wants to take via eminent domain, to take him at his word that his investors present no conflicts of interest. On the other hand, he has stated that his plan the entire time has been to re-propose an updated version of the Illiana Expressway, even going so far as stating that he knew mentioning that prior to the formal application would brew too much opposition early on. This is not a man that can be trusted. Full disclosure and complete transparency is the only acceptable path forward. The public and the press deserve the right to research all political and financial connections prior to acceptance of this application. We are talking about the forced sale and/or extreme devaluation of our property, our livelihood, our heritage. We deserve to know who is behind it.
