Public Record

Simple common sense would say the railroads should be the ones deciding these matters, or at least have a huge say in it. Also, whatever happened to improving what we have or even expanding it. Just because there exists a government slush fund doesn't mean we have to waste it on some far -fetched project when there are practical useful alternatives. Lets fix what we have and upgrade it instead of abandoning it and leaving it to rot away for the next generation to clean up
