I have written letters to your board in the past opposing the GLBT. Not only is this Railroad for hire a threat to our safety and personal property now Mr. Patton doesn't want to disclose any of his financial backers or if he has anyone to use his RR. To me if you are spending that much money, time & taking other people's property you would have customers lined up to support the GLBT. If you didn't have customers your undisclosed backers would be gone. If this was going on in your back yard stealing land and creating havoc wouldn't you want to have this information. I feel he should be made to provide all this information.

Thank you for your time,
