ENTERED
Office of Proceedings
May 22, 2017
Part of
Public Record

The board must Deny any order of Protection for the Great Lakes Basin Railroad. They have tried to avoid every normal honest method in their application and should not be given special treatment in any of their actions. We the public and affected property owners have every right to know, who and what investors are behind this destructive idea of theirs. Please deny their motion for order of protection. Their Railroad proposal would be devastating to the entire area it would take, and the areas it would pass through. With no known benefits. They are stating and using many untrue s in their propaganda, like claiming it takes 30 hours for trains to get thru Chicago when it only takes 9 or less, according to the area Railroads themselves.
