GLBT Application

Owen Township Resident

To whom it may concern:

We strongly appose the GLBT plan for the following reasons --

It is unnecessary, since other plans for relieving congestion in Chicago are already well advanced;

It grossly abuses the power of eminent domain for little public gain;

It would destroy thousands of good and irreplaceable acres of agriculture land in Northern Illinois;

It would disrupt and endanger transportation of school children in the areas in which it impacts;

It would disrupt local transportation patterns without any compensatory gain.

Respectfully Submitted,

Allan and Elizabeth Carlson
