Part of
Public Record

Please do not shorten the time available to work out difficult and complex agreements to convert rails to trails. These negotiations are for the benefit of the public at large and future generations and shortening them to an unrealistic time line is a disservice to all of us. Given the complex nature of these negotiations, ten years would be much more reasonable than three.

Thank you for thinking of the future and also, keeping in mind the wonderful trails we already have as a result of rails to trails. Don't put arbitrary limits on our future capacity to have more.
