Dear Tribes,

We have consolidated the tribal site information collected during cultural resources surveys conducted this summer. As you know, the surveys were completed to assess the cultural resources potential of the 14 alternatives under consideration by the Surface Transportation Board in the Tongue River Railroad Construction (TRRC) Project. The tribal data set consists of 12 maps and a table describing sites identified by the tribes who participated in the surveys.

To ensure confidentiality, the tribal data will only be sent to tribes consulting with us on the TRRC Project. Please let me, or Rick Starzak of ICF International, know by this Thursday how you would like to receive the information. I can be reached at nadalsc@stb.dot.gov or 202-245-0293. Rick can be contacted at Richard.Starzak@icfi.com or 213-312-1751. If we don't hear from you, we will mail you a CD of the data along with hard copies of the maps and table via certified mail.

We are also in the process of assembling the site information collected by the archaeologists and architectural historians who participated in the surveys. We should be ready to distribute this remaining survey data to you by the end of the month.

All the best,
-Cathy
