Lynn -

The letter went up on the Board's Web site during the week of July 12 as document # EO-1466. I've attached a copy for your convenience.

Because we have made no decisions on the "Central Segment," let alone name it, you won't find that term in the letter. But it's the topic of the second paragraph of Item 2 in the letter. Note: this discussion includes a typo and incorrectly refers to the Mac West Segment rather than the Mac East Segment.

Thanks,

Dave

Subject Docket FD35095

David,

As per our phone conversation, two weeks ago, you indicated there was a letter written to the Alaska Railroad to K. Dorcy Whitney LLC (sp?) with the above referenced Docket number. I keep checking daily for that letter to no avail. You indicated that it would take a couple weeks (it's been since June 10, 2010) It has been more than a couple weeks.

Is it possible for you to scan a copy of that letter in to me? If not, when do you anticipate getting this onto the website for the public?

Regards
