Subject: RE: Uinta Basin Railway EIS - Coordinating with the Craig field teams

Hi Mike,

Hope you've had a great field season since we last connected. I'd like to get out for the second round of wetland field verification next week between August 21st and 23rd. Same approach as last time. By the end of this week (or by Monday next week), would you be able to send me wetland delineation forms that you've recently completed along the Craig Route? Corresponding raw preliminary shapefiles or kmzs for point data (wetland sample plots), polygons (wetlands), and line data (drainages) would also be very helpful and much appreciated.

Please feel free to reach out to me with any questions.

Thanks!

ALEX BARTLETT | ICF | +1.303.792.7827 direct | icf.com

Kevin and Karen,

As discussed on our call yesterday, Alex Bartlett from ICF will join the wetlands and bio field crew on their survey work for a couple days of observations during the week of August 19. Please connect Alex to your field team lead directly so they can work out the details.

Also, please let us know when you have more details around the schedule of the cultural resources field work for Craig.

Thank you,
Chris
