Hi Terrence,

This is a follow-up to my question on passenger trains. The application (p. 27) appears to only addresses passenger impact on CSXT's Albany-Fresh Pond segment. Can you provide information on the north of Albany trains? I believe that there are two sets of two trains (one each way) north of Albany: one goes between Albany and Montreal (partly on a different route than the application), but mostly on the application route (the "Adirondack") and the other set goes between Albany and Whitehall NY and thence to/from Rutland VT, a considerably shorter distance on the application route (the "Ethan Allen Express").

Thanks

Phillis
