Lou -

We would like to confirm that we are looking at the correct sets of tracks that connect the L&I rail line to the Indiana Line Subdivision and LCL Subdivision. Accordingly, attached are two figures: one for the CSXT Beltline (displayed as a green line) and one for the CSXT Louisville Connection (displayed as a yellow line). In addition to the Indianapolis Line Subdivision, these are the connecting rail lines we intend to assess in the Supplemental EA (e.g., noise, vibration, crossing safety, etc.) once we receive confirmation from CSXT.

Please let me know if you have any questions.

Thanks,

Dave
