Ok. I thought that they were preparing a report that included all of the Craig Route data for submission to SHPO, separate from what they prepared for us. I will forward Savanna's comments on the archaeology report to Anne, and copy you and Josh. She can then have SWCA revise it and send back to us for posting on the project website. As we have noted before, we will be referencing those reports in our Section 106 technical memo.

Thanks.

I heard back from Anne at SWCA. They have not been communicating with SHPO. If you have any comments from the SHPO, we can then revise and submit final copies of the reports to both STB and SHPO.

Sounds good. Just want to make sure we aren't duplicating efforts, or potentially confusing the SHPO. Chatting about it will be great. Thanks.

Good morning Alan. I've reached out to Anne at SWCA to see if they have been communicating directly with the SHPO. I should hear back from her this morning and then we can get on a call together.

Hi Kevin. I wanted to set up a time for the 3 of us to talk through how the SWCA reports are being finalized and transmitted to the SHPO. The SHPO provided us with comments on the SWCA archaeology report and I wasn't sure if they have also been providing feedback to the Coalition and/or SWCA. The reports are all very good so no issue there, I just want to avoid confusion.

Can we set up a time tomorrow for a call just to go over what is out there, what is being revised, who is submitting what, etc. I have time tomorrow afternoon, as well as all day on Friday. Let me know what might work.

Thanks much and stay safe.
