Subject: FW: UBR EIS - Field Staff Names for HDR

Kevin,

As you know, OEA is requesting that ICF personnel accompany HDR during field investigations related to the Uinta Basin Railway project in order to observe the data collection methods. ICF has identified the appropriate qualified staff members to observe the fieldwork (see the message below) and we are interested in finalizing the necessary coordination. Is there a time this week that would work well for you to have a conference call with me and ICF to discuss this?

Thanks,
Josh

Subject: UBR EIS - Field Staff Names for HDR

Good morning Josh,

As we discussed yesterday, we have identified two people that would accompany the HDR-led field teams if they go into the field next week. These include Alex Bartlett from ICF, who would accompany the wetlands and habitat survey teams, and Wendy Simmons Johnson, who would accompany the cultural survey teams.

I believe HDR is looking to get those names soon and to set up a coordination call. Would you like us to pass that information along and coordinate the scheduling of that call with Kevin Keller?

All the Best,
Chris
