We just have a target period of later this winter. Timing will depend on how the review of the preliminary Final EIS goes with the cooperating agencies.

Thank you, and it will remain in-house. Do you have a target date for the Final EIS?

Erik -

Attached is draft Figure 2-3 which will appear in the Final EIS. It shows the location of the Mac East Variant.

Until the Final EIS is issued, this figure must not be shown or distributed to any members of the general public.

Thanks,

Dave
