() NEW COMMENTS WERE RECEIVED

OEA served an Environmental Assessment (EA) for this proceeding on April 6, 2018 for public review and comment. In the EA, OEA recommended one environmental condition and concluded that the proposed action would not significantly impact the quality of the human environment.

Conclusions

The EA comment period has ended. Accordingly, OEA recommends that the following condition previously recommended in the EA should be imposed upon any decision granting abandonment authority:

- The Illinois Central Railroad Company shall consult with the National Geodetic Survey (NGS) and notify NGS at least 90 days prior to beginning salvage activities that will disturb or destroy any geodetic station markers.

If the above condition is imposed, OEA believes that the proposed action will not significantly affect the quality of the human environment.
