Subject: Re: Great Lakes Basin rail

Mr. Gardin -

Great Lakes Basin Transportation, Inc. states that the proposed rail line would be used by unit commodity trains (e.g., coal trains), mixed carload trains and intermodal trains. This information can be found on page 4 of our March 18, 2016 Notice of Intent to Prepare an Environmental Impact Statement (NOI). Here is a link to the NOI from our project website:

http://www.greatlakesbasinraileis.com/documents/noi_draft_scope.pdf

I anticipate that we will get more detailed information on this topic as our environmental review process continues.

Thanks,

Dave

Dear Mr. Navecky:

Can you tell me what type of material could be transported on the proposed Great Lakes Basin rail?

Thank you,
Rod Gardin
