Subject: Final Scope of Study for Uinta Basin Railway EIS

Ryan,

I wanted to let you know that the Surface Transportation Board issued the Final Scope this morning for the Uinta Basin Railway EIS. The document is up on our website at www.stb.gov under Recent Decisions, but I can send you a .pdf copy if that would be helpful. If you have any questions about the Final Scope, please feel free to give me a call. I should be available any time today to talk.

Best,
Josh
