Mr. Herb Jones
Government Affairs Director
Dakota, Minnesota, & Eastern Railroad
140 North Phillips Avenue
Sioux Falls, SD 57101

RE: STB Finance Docket No. 33407, Dakota, Minnesota & Eastern Railroad (DM&E) Corporation Construction into the Powder River Basin Project: Report for your comment.

Dear Mr. Jones:

The Surface Transportation Board's (STB) Section of Environmental Analysis (SEA) is pleased to provide you with the draft report: *A Level III Cultural Resources Evaluation of the Proposed Dakota, Minnesota & Eastern Railroad Corporation's Powder River Basin Expansion Project Corridor, PRC Segment 2, Haakon and Stanley Counties, South Dakota*, (LBG Tracking No. SD3b¹). This report has been prepared as part of the cultural resources studies being completed to comply with the provisions of the Section 106 Programmatic Agreement (PA) and Identification (ID) Plan executed in May 2003 (amended in May 2008) pursuant to 36 CFR 800.14 (b) for the above-referenced project. We request your comments on the report pursuant to Section A.3.1 of the PA.

The enclosed report is an addendum to an earlier survey report prepared in July 2001 by Burns & McDonnell entitled: *Level I and II Cultural Resource Survey and Site Testing and Evaluation for 317 Miles of Railroad Reconstruction From the Minnesota Border to Wall, South Dakota (SD3)*. The 2001 report prepared by Burns & McDonnell described survey work conducted within the DM&E's existing railroad right-of-way. The enclosed follow-up report presents the results of supplemental archaeological investigations that were conducted by the Archaeological Laboratory, Augustana College during November and December of 2007 and April 2008. These surveys examined an additional 1,092.5 acres of land in Haakon and Stanley

¹ Note: The alpha-numeric code associated with each report is a notation used by STB's Third Party Consultant for tracking purposes. The letters refer to the state where the survey work was performed, the number "3" references the report, and the letter "b" indicates that this is an addendum to Report 3. Please reference this code in your response.

counties, South Dakota which are being studied for additional project right-of-way and borrow areas.

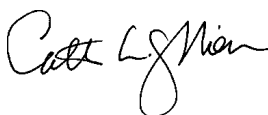

A total of 35 archaeological sites were identified as part of this survey work and are described in this report. The consultant has recommended that 4 sites be considered eligible under one or more National Register criteria and that 19 sites be considered not eligible. A total of 12 archaeological sites remain “unevaluated” under one or more National Register criteria. In each instance, the consultant provides recommendations for additional study necessary to complete the property evaluation, including additional subsurface testing, Native American consultation regarding features of potential significance to tribes, and further historic architectural review. A complete list of all 35 sites is included on the accompanying Report Review & Comment Form which you are invited to use in providing a response.

The STB will make its final National Register evaluations pending receipt of comments from participating tribes, agencies, and information from the South Dakota Historic Preservation Officer.

In accordance with Section A.3.1 of the PA, please provide your written comments and/or suggested revisions regarding this report within 30 days of receiving this letter. If you have any questions or comments regarding any of the above, please feel free to contact me at 202-245-0293 or by email at Catherine.Glidden@stb.dot.gov. You can also contact Randy Withrow, with The Louis Berger Group, Inc., at 319-373-3043 or by email at rwithrow@louisberger.com. Pursuant to the PA, SEA will assume that the lack of comments provided within the review period will mean your concurrence with the report content and findings.

Thank you taking the time to review the enclosed report.

Sincerely,

Catherine Glidden

P.O. Box 145
Concho, OK 73022

RE: STB Finance Docket No. 33407, Dakota, Minnesota & Eastern Railroad (DM&E) Corporation Construction into the Powder River Basin Project: Report for your comment.

Dear Mr. Yellowman:

The Surface Transportation Board's (STB) Section of Environmental Analysis (SEA) is pleased to provide you with the draft report: *A Level III Cultural Resources Evaluation of the Proposed Dakota, Minnesota & Eastern Railroad Corporation's Powder River Basin Expansion Project Corridor, PRC Segment 2, Haakon and Stanley Counties, South Dakota*, (LBG Tracking No. SD3b¹). This report has been prepared as part of the cultural resources studies being completed to comply with the provisions of the Section 106 Programmatic Agreement (PA) and Identification (ID) Plan executed in May 2003 (amended in May 2008) pursuant to 36 CFR 800.14 (b) for the above-referenced project. We request your comments on the report pursuant to Section A.3.1 of the PA.

The enclosed report is an addendum to an earlier survey report prepared in July 2001 by Burns & McDonnell entitled: *Level I and II Cultural Resource Survey and Site Testing and Evaluation for 317 Miles of Railroad Reconstruction From the Minnesota Border to Wall, South Dakota (SD3)*. The 2001 report prepared by Burns & McDonnell described survey work conducted within the DM&E's existing railroad right-of-way. The enclosed follow-up report presents the results of supplemental archaeological investigations that were conducted by the Archaeological Laboratory, Augustana College during November and December of 2007 and April 2008. These surveys examined an additional 1,092.5 acres of land in Haakon and Stanley

¹ Note: The alpha-numeric code associated with each report is a notation used by STB's Third Party Consultant for tracking purposes. The letters refer to the state where the survey work was performed, the number "3" references the report, and the letter "b" indicates that this is an addendum to Report 3. Please reference this code in your response.

counties, South Dakota which are being studied for additional project right-of-way and borrow areas.

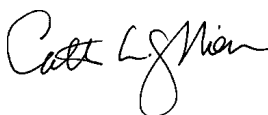

A total of 35 archaeological sites were identified as part of this survey work and are described in this report. The consultant has recommended that 4 sites be considered eligible under one or more National Register criteria and that 19 sites be considered not eligible. A total of 12 archaeological sites remain “unevaluated” under one or more National Register criteria. In each instance, the consultant provides recommendations for additional study necessary to complete the property evaluation, including additional subsurface testing, Native American consultation regarding features of potential significance to tribes, and further historic architectural review. A complete list of all 35 sites is included on the accompanying Report Review & Comment Form which you are invited to use in providing a response.

The STB will make its final National Register evaluations pending receipt of comments from participating tribes, agencies, and information from the South Dakota Historic Preservation Officer.

In accordance with Section A.3.1 of the PA, please provide your written comments and/or suggested revisions regarding this report within 30 days of receiving this letter. If you have any questions or comments regarding any of the above, please feel free to contact me at 202-245-0293 or by email at Catherine.Glidden@stb.dot.gov. You can also contact Randy Withrow, with The Louis Berger Group, Inc., at 319-373-3043 or by email at rwithrow@louisberger.com. Pursuant to the PA, SEA will assume that the lack of comments provided within the review period will mean your concurrence with the report content and findings.

Thank you taking the time to review the enclosed report.

Mr. William Quackenbush
Tribal Historic Preservation Officer
Ho-Chunk Nation
P.O. Bo 667
Black River Falls, WI 54615

RE: STB Finance Docket No. 33407, Dakota, Minnesota & Eastern Railroad (DM&E) Corporation Construction into the Powder River Basin Project: Report for your comment.

Dear Mr. Quackenbush:

The Surface Transportation Board's (STB) Section of Environmental Analysis (SEA) is pleased to provide you with the draft report: *A Level III Cultural Resources Evaluation of the Proposed Dakota, Minnesota & Eastern Railroad Corporation's Powder River Basin Expansion Project Corridor, PRC Segment 2, Haakon and Stanley Counties, South Dakota*, (LBG Tracking No. SD3b¹). This report has been prepared as part of the cultural resources studies being completed to comply with the provisions of the Section 106 Programmatic Agreement (PA) and Identification (ID) Plan executed in May 2003 (amended in May 2008) pursuant to 36 CFR 800.14 (b) for the above-referenced project. We request your comments on the report pursuant to Section A.3.1 of the PA.

The enclosed report is an addendum to an earlier survey report prepared in July 2001 by Burns & McDonnell entitled: *Level I and II Cultural Resource Survey and Site Testing and Evaluation for 317 Miles of Railroad Reconstruction From the Minnesota Border to Wall, South Dakota (SD3)*. The 2001 report prepared by Burns & McDonnell described survey work conducted within the DM&E's existing railroad right-of-way. The enclosed follow-up report presents the results of supplemental archaeological investigations that were conducted by the Archaeological Laboratory, Augustana College during November and December of 2007 and April 2008. These surveys examined an additional 1,092.5 acres of land in Haakon and Stanley

¹ Note: The alpha-numeric code associated with each report is a notation used by STB's Third Party Consultant for tracking purposes. The letters refer to the state where the survey work was performed, the number "3" references the report, and the letter "b" indicates that this is an addendum to Report 3. Please reference this code in your response.

counties, South Dakota which are being studied for additional project right-of-way and borrow areas.

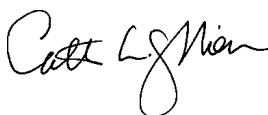

A total of 35 archaeological sites were identified as part of this survey work and are described in this report. The consultant has recommended that 4 sites be considered eligible under one or more National Register criteria and that 19 sites be considered not eligible. A total of 12 archaeological sites remain “unevaluated” under one or more National Register criteria. In each instance, the consultant provides recommendations for additional study necessary to complete the property evaluation, including additional subsurface testing, Native American consultation regarding features of potential significance to tribes, and further historic architectural review. A complete list of all 35 sites is included on the accompanying Report Review & Comment Form which you are invited to use in providing a response.

The STB will make its final National Register evaluations pending receipt of comments from participating tribes, agencies, and information from the South Dakota Historic Preservation Officer.

In accordance with Section A.3.1 of the PA, please provide your written comments and/or suggested revisions regarding this report within 30 days of receiving this letter. If you have any questions or comments regarding any of the above, please feel free to contact me at 202-245-0293 or by email at Catherine.Glidden@stb.dot.gov. You can also contact Randy Withrow, with The Louis Berger Group, Inc., at 319-373-3043 or by email at rwithrow@louisberger.com. Pursuant to the PA, SEA will assume that the lack of comments provided within the review period will mean your concurrence with the report content and findings.

Thank you taking the time to review the enclosed report.

counties, South Dakota which are being studied for additional project right-of-way and borrow areas.

A total of 35 archaeological sites were identified as part of this survey work and are described in this report. The consultant has recommended that 4 sites be considered eligible under one or more National Register criteria and that 19 sites be considered not eligible. A total of 12 archaeological sites remain “unevaluated” under one or more National Register criteria. In each instance, the consultant provides recommendations for additional study necessary to complete the property evaluation, including additional subsurface testing, Native American consultation regarding features of potential significance to tribes, and further historic architectural review. A complete list of all 35 sites is included on the accompanying Report Review & Comment Form which you are invited to use in providing a response.

The STB will make its final National Register evaluations pending receipt of comments from participating tribes, agencies, and information from the South Dakota Historic Preservation Officer.

In accordance with Section A.3.1 of the PA, please provide your written comments and/or suggested revisions regarding this report within 30 days of receiving this letter. If you have any questions or comments regarding any of the above, please feel free to contact me at 202-245-0293 or by email at Catherine.Glidden@stb.dot.gov. You can also contact Randy Withrow, with The Louis Berger Group, Inc., at 319-373-3043 or by email at rwithrow@louisberger.com. Pursuant to the PA, SEA will assume that the lack of comments provided within the review period will mean your concurrence with the report content and findings.

Thank you taking the time to review the enclosed report.

RE: STB Finance Docket No. 33407, Dakota, Minnesota & Eastern Railroad (DM&E) Corporation Construction into the Powder River Basin Project: Report for your comment.

Dear Mr. Provost:

The Surface Transportation Board's (STB) Section of Environmental Analysis (SEA) is pleased to provide you with the draft report: *A Level III Cultural Resources Evaluation of the Proposed Dakota, Minnesota & Eastern Railroad Corporation's Powder River Basin Expansion Project Corridor, PRC Segment 2, Haakon and Stanley Counties, South Dakota*, (LBG Tracking No. SD3b¹). This report has been prepared as part of the cultural resources studies being completed to comply with the provisions of the Section 106 Programmatic Agreement (PA) and Identification (ID) Plan executed in May 2003 (amended in May 2008) pursuant to 36 CFR 800.14 (b) for the above-referenced project. We request your comments on the report pursuant to Section A.3.1 of the PA.

The enclosed report is an addendum to an earlier survey report prepared in July 2001 by Burns & McDonnell entitled: *Level I and II Cultural Resource Survey and Site Testing and Evaluation for 317 Miles of Railroad Reconstruction From the Minnesota Border to Wall, South Dakota (SD3)*. The 2001 report prepared by Burns & McDonnell described survey work conducted within the DM&E's existing railroad right-of-way. The enclosed follow-up report presents the results of supplemental archaeological investigations that were conducted by the Archaeological Laboratory, Augustana College during November and December of 2007 and April 2008. These surveys examined an additional 1,092.5 acres of land in Haakon and Stanley

¹ Note: The alpha-numeric code associated with each report is a notation used by STB's Third Party Consultant for tracking purposes. The letters refer to the state where the survey work was performed, the number "3" references the report, and the letter "b" indicates that this is an addendum to Report 3. Please reference this code in your response.

counties, South Dakota which are being studied for additional project right-of-way and borrow areas.

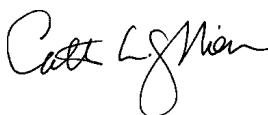

A total of 35 archaeological sites were identified as part of this survey work and are described in this report. The consultant has recommended that 4 sites be considered eligible under one or more National Register criteria and that 19 sites be considered not eligible. A total of 12 archaeological sites remain “unevaluated” under one or more National Register criteria. In each instance, the consultant provides recommendations for additional study necessary to complete the property evaluation, including additional subsurface testing, Native American consultation regarding features of potential significance to tribes, and further historic architectural review. A complete list of all 35 sites is included on the accompanying Report Review & Comment Form which you are invited to use in providing a response.

The STB will make its final National Register evaluations pending receipt of comments from participating tribes, agencies, and information from the South Dakota Historic Preservation Officer.

In accordance with Section A.3.1 of the PA, please provide your written comments and/or suggested revisions regarding this report within 30 days of receiving this letter. If you have any questions or comments regarding any of the above, please feel free to contact me at 202-245-0293 or by email at Catherine.Glidden@stb.dot.gov. You can also contact Randy Withrow, with The Louis Berger Group, Inc., at 319-373-3043 or by email at rwithrow@louisberger.com. Pursuant to the PA, SEA will assume that the lack of comments provided within the review period will mean your concurrence with the report content and findings.

Thank you taking the time to review the enclosed report.

The enclosed follow-up report presents the results of supplemental archaeological investigations that were conducted by the Archaeological Laboratory, Augustana College during November and December of 2007 and April 2008. These surveys examined an additional 1,092.5 acres of land in Haakon and Stanley

¹ Note: The alpha-numeric code associated with each report is a notation used by STB's Third Party Consultant for tracking purposes. The letters refer to the state where the survey work was performed, the number "3" references the report, and the letter "b" indicates that this is an addendum to Report 3. Please reference this code in your response.

counties, South Dakota which are being studied for additional project right-of-way and borrow areas.

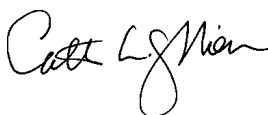

A total of 35 archaeological sites were identified as part of this survey work and are described in this report. The consultant has recommended that 4 sites be considered eligible under one or more National Register criteria and that 19 sites be considered not eligible. A total of 12 archaeological sites remain “unevaluated” under one or more National Register criteria. In each instance, the consultant provides recommendations for additional study necessary to complete the property evaluation, including additional subsurface testing, Native American consultation regarding features of potential significance to tribes, and further historic architectural review. A complete list of all 35 sites is included on the accompanying Report Review & Comment Form which you are invited to use in providing a response.

The STB will make its final National Register evaluations pending receipt of comments from participating tribes, agencies, and information from the South Dakota Historic Preservation Officer.

In accordance with Section A.3.1 of the PA, please provide your written comments and/or suggested revisions regarding this report within 30 days of receiving this letter. If you have any questions or comments regarding any of the above, please feel free to contact me at 202-245-0293 or by email at Catherine.Glidden@stb.dot.gov. You can also contact Randy Withrow, with The Louis Berger Group, Inc., at 319-373-3043 or by email at rwithrow@louisberger.com. Pursuant to the PA, SEA will assume that the lack of comments provided within the review period will mean your concurrence with the report content and findings.

Thank you taking the time to review the enclosed report.

RE: STB Finance Docket No. 33407, Dakota, Minnesota & Eastern Railroad (DM&E) Corporation Construction into the Powder River Basin Project: Report for your comment.

Dear Ms. Pearson:

The Surface Transportation Board's (STB) Section of Environmental Analysis (SEA) is pleased to provide you with the draft report: *A Level III Cultural Resources Evaluation of the Proposed Dakota, Minnesota & Eastern Railroad Corporation's Powder River Basin Expansion Project Corridor, PRC Segment 2, Haakon and Stanley Counties, South Dakota*, (LBG Tracking No. SD3b¹). This report has been prepared as part of the cultural resources studies being completed to comply with the provisions of the Section 106 Programmatic Agreement (PA) and Identification (ID) Plan executed in May 2003 (amended in May 2008) pursuant to 36 CFR 800.14 (b) for the above-referenced project. We request your comments on the report pursuant to Section A.3.1 of the PA.

The enclosed report is an addendum to an earlier survey report prepared in July 2001 by Burns & McDonnell entitled: *Level I and II Cultural Resource Survey and Site Testing and Evaluation for 317 Miles of Railroad Reconstruction From the Minnesota Border to Wall, South Dakota (SD3)*. The 2001 report prepared by Burns & McDonnell described survey work conducted within the DM&E's existing railroad right-of-way. The enclosed follow-up report presents the results of supplemental archaeological investigations that were conducted by the Archaeological Laboratory, Augustana College during November and December of 2007 and April 2008. These surveys examined an additional 1,092.5 acres of land in Haakon and Stanley

¹ Note: The alpha-numeric code associated with each report is a notation used by STB's Third Party Consultant for tracking purposes. The letters refer to the state where the survey work was performed, the number "3" references the report, and the letter "b" indicates that this is an addendum to Report 3. Please reference this code in your response.

counties, South Dakota which are being studied for additional project right-of-way and borrow areas.

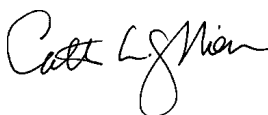

A total of 35 archaeological sites were identified as part of this survey work and are described in this report. The consultant has recommended that 4 sites be considered eligible under one or more National Register criteria and that 19 sites be considered not eligible.
