Hi Stan,

We've been doing a lot of detailed mapping to plan out the May-June 2014 field surveys with the tribes, so we should have fairly accurate numbers in the next few weeks. We also understand the Colstrip landowners are meeting today to discuss removing restrictions on their land, and depending on the outcome of that meeting, it would change the percentages of accessible land.

Cathy and I are making plans, and both hope to be at the tribal summit on May 7-8.

Rick

Hi: I have been out of state on family business. Am looking at March 12 mailing. Can you please tell me what is the inventoried area percentage is for each alternative? Both current undertaking inventory and previous but up to standards inventory? Thanks Stan. Will any one be attending ACHP summit in May?
