Hi Mark,

Lisa had requested that I respond to your question as shown below.

You can provide input by attending the upcoming scoping meetings and/or Section 106 consulting party meetings. We will be having these meetings sometime after we publish our Notice of Intent to complete a new EIS for Tongue River.

If you have any further questions, please feel to contact me at gliddenc@stb.dot.gov or 202-245-0293. I will be working on the cultural resources portion of the project. If you have questions pertaining to other aspects of the project, please contact either Danielle Gosselin at 202-245-0300 or Ken Blodgett at 202-245-0305.

-Cathy

Lisa: Thank you for forwarding this email. Will the new EIS give us an opportunity to have input into how the railroad affects the Fort? How can we participate to have more input?

Will there be on the ground assessments for the new Route 1 EIS?

Thanks, mark
