Mr. Fix,

I just wanted to let you know that the .kmz (GoogleEarth) files of the alternative alignments have been posted on the Tongue River Railroad project website at <http://www.tonguerivereis.com/map.html>. These are the same routes that are shown in the interactive map. I hope they are helpful!

Hi Josh,

I understand that the latest up to date maps are on the interactive site. One of the people in the Ashland area asked why a specific person who had a house crossed by the alignment was not shown in the photos of the residences crossed. I thought that we could look at the maps and see that. Unfortunately the interactive maps are not enough detail to see that. The google earth maps were. I don't know if you can update the Google Earth maps with the latest alignment, but that would probably be the best for folks to see where the routes are going now.

Mark Fix

Mr. Fix,

My name is Josh Wayland; I am with the Surface Transportation Board's Office of Environmental Analysis. Vicki Rutson asked that I reach out to you to make sure that you were able to access the maps of the alternatives for the Tongue River Railroad project. The final maps from the Draft EIS have been published as an interactive web map that you can find on the project website at <http://www.tonguerivereis.com/map.html>. Please feel free to call me at the number below if you are having any trouble using these maps or if you would like me to send you the maps in a different format. Just let me know what I can do to help!

Best regards,
