Subject: Information on Proposed Rail Line

Tom -

As we discussed on the phone this morning, here are some links to our project website. This is the link to the home page:

<http://www.greatlakesbasinraileis.com/index.html>

Additional details about the proposed rail line are located on the "Related Links and Documents" page:

http://www.greatlakesbasinraileis.com/links_docs.html

Under the information submitted by the Great Lakes Railroad folks (or Applicant) on March 7, 2016, the document under "Route Narrative" provides some information on how they came up with the current proposed route. The document under "Routes and Points of Interchange Information" provides proposed road crossing information; that is, what rail/road crossings would be grade separated or at-grade. The top of the seventh page, for Mileposts 0.0 to 10.0, includes the proposed crossings in and around Westville.

On the "Maps" page, you can open a *.KMZ file using Google Earth to zoom in and look around at the proposed rail line in and around Westville.

<http://www.greatlakesbasinraileis.com/maps.html>

Please let me know if you have any follow-up questions.

Thanks,

Dave
